OKLAHOMA CITY, Okla., Oct.
12.—George ("Machine Gun")
Kelly and his wife, Kathryn, were
found guilty of the \$200,000 kidnaping
of Charles F. Urschel by a jury
in federal court today and were
almost immediately sentenced by
Judge Edgar S. Vaughn to life
imprisonment.

A hushed silence, broken only by
the faint whirr of motion picture
cameras, fell over the crowded court
room as the verdict was read.

Kathryn Kelly—a slim, narrow-
shouldered figure in black—sat be-
side her husband directly in front
of the judge's bench as the fore-
man of the jury announced in re-
sponse to a question from the court
that the verdict had been reached.

"The court will receive the ver-
dict," said Judge Vaughn.

The spectators were tense and a
pall of silence enveloped the court

City School Bonds Bring Good Premium

Some idea of the soundness of the
financial condition of the New Cas-
tle School Board was indicated on
Wednesday night when bids for the
\$70,000 worth of 4½ per cent school
bonds were sold to Glover and Mc-
Gregor of Pittsburgh for par, plus
accrued interest on date of deliv-
ery, plus a premium of \$1230. This
represents a bid of \$101,757 for each
\$100 worth of the bonds.

The bond issue is the re-financ-
ing of \$70,000 worth of bonds that
came due this year. As a temporary
savings the board decided to re-
issue the same amount of bonds thus
offering \$640.37 premium.

There are several legal formalities
to conform with before the bonds
can be actually turned over to the
low bidder and these legalities will
be attended to by the Bond Com-
mittee to which was turned over the
bids of the companies desiring to
buy the bonds.

Wrecks Car To Avert Striking Several Boys

In avoiding a collision with sev-
eral small boys near Coitsville Wed-
nesday night about eight o'clock,
J. A. Perry of this city wrecked his
car, injured himself and his wife
and nearly cost them both their
lives.

With Mrs. Perry he was driving
towards New Castle. Suddenly
three boys were seen about a rod
ahead, crossing the road with a
small express wagon. Without hesi-
tating Mr. Perry swerved his car to
the side of the road. It went down
a bank and crashed into a tree,
wrecking it.

Mr. Perry had several teeth
knocked out, while Mrs. Perry suf-
fered a concussion and bruises about
the legs. Mr. Perry immediately
tried to find the boys but they had
gone. Their wagon and a bicycle
were found on the side of the road.

ing the \$3,300,000,000 public works

struction work was termed essential

Safe-Crackers Get Only \$10

(International News Service)
BRADFORD, Pa., Oct. 12.—The
midnight safe-crackers who broke
into the Burdick Brothers store at
nearby Rixford early today took
every precaution against detection.
They muffled the sound of their
explosion to blow open the safe by
packing the strong box in water-
soaked clothing.

They wore gloves so as not to leave
fingerprints.

The loot? Oh yes. They got \$10
and a stack of non-negotiable pa-
pers—checks, notes, deeds, insur-
ance policies, the marine corps dis-
charge of George Burdick, etc.—val-
uable only to the owner.

BACK TAXES BEING PAID

School Treasurer Gets \$24,-
000 From 1931 And 1932
Delinquents

INCREASED WORK BOOSTS PAYMENTS

Indicating a very definite trend
towards the payment of back taxes,
City Treasurer L. W. McClung has
received a check from the county
treasurer for \$24,000, which repre-
sents 1931 and 1932 delinquent prop-
erty school taxes which had been
filed in the court house.

While there is always some small
payments made on such delinquent
taxes, this is far ahead of any pay-
ment made to the school district
and will be a welcome addition to a
depleted school treasury.

Increased work is undoubtedly the
reason for the large amount of back
taxes paid. In addition, Mr. Mc-
Clung stated, there is an increase in
the city treasurer's office of taxes
being paid.

The school taxes received, repre-
sent payments by taxpayers who
were unable to pay during the spec-
ified time and whose taxes were filed
as liens against their property in
the office of the county commis-
sioner.

Fail To Identify Two Suspects In Warren Robbery

(International News Service)
CLEVELAND, Oct. 12.—Witnesses
to the \$68,000 Warren, O., bank
robbery Monday today failed to iden-
tify two ex-convicts arrested here as
possible suspects in the crime.

Frank Fisher and Charles Wolf,
the two bank messengers from
whose possession the money was
whisked without a shot being fired,
could not pick out the men from a
police lineup.

Detective Sergeant Bernard Wolf
said that the ex-convicts would be
held until witnesses of a \$2,800 bank
holdup in Delaware, O., Sept. 1 view
the men.

Those arrested were Edward De-
gan, 38 and Richard Silsby, 31 both
known police characters.

Tax Collector French Ordered To Make Report

Road Supervisors Of Perry
Township Bring Action
To Secure Account-
ing

MANDAMUS ISSUED
UPON DEFENDANT

Upon a petition presented in court
by George R. Nagle, E. L. Hazen
and A. C. Beighley, road supervisors
of Perry township, Judge R. L. Hil-
debrand this morning issued a per-
emptory mandamus on J. L. French,
tax collector of that district, to pre-
sent a statement of his accounts to the
road supervisors within 15 days.

The proceeding is a very unusual
one, the title of the case being The
Commonwealth of Pennsylvania, at
relation of John Powers, district at-
torney, against J. L. French.

The petition of the road super-
visors sets forth that prior to 1931
J. L. French was elected tax col-
lector of Perry township. As such
the duplicate for road taxes for 1931,
amounting to \$4,992.44 was placed
in his hands for collection. Later
the duplicate for 1932, showing \$3,-
340.66 was placed for collection.

board of supervisors, claims that

Will Reduce Prices In School Cafeterias

For the remainder of the school
year, the cafeterias in the senior
high school, Washington and Frank-
lin junior high schools will operate
at a loss by specific authority of the
school board. Wednesday night the
board instructed Mrs. Rachel P.
Taylor to increase portions and cut
prices even though the financial
statement of the three cafeterias
shows a loss of \$100 per month for
the three.

The matter was broached when
Mrs. J. C. B. Douthett asked what
was being done with the surplus
cafeteria money. At the present
time there is \$944.50 deposited with
the board and in addition the money
on hands in the three cafeterias
amounts to about \$5000.

Mrs. Douthett explained that sev-
eral articles which had sold for three
cents last term were selling for five
cents this year, among them milk
and bread.

"We don't want to make any
money from these cafeterias," said
Mr. McIlvenny, "particularly at a
time like this."

"The milk could be sold at cost,"
said Mrs. Douthett. "At present they
are selling it for five cents a bottle,
although there is no chocolate milk
being sold."

"I am against selling chocolate
milk to school children," said Dr.
Cleland. "It may be the best milk
in the world but I object to the
chocolate in it."

After a general discussion it was
decided to authorize Mrs. Taylor to
effect reductions in prices and to in-
crease portions. If the deficit each
month amounts to \$100 this will come
out of the surplus which has been
piled up and the youngsters will get
the benefit of the cuts.

More Than Thousand Missed By Enumerators Of School Children

One thousand one hundred thirty
names were added to the school
enumerators lists by Dr. C. C. Green
Wednesday night at the meeting of
the board. The names represent
those which were missed by enu-
merators who worked during the sum-
mer listing the children between the
ages of six and sixteen.

Each year the law requires the
school district to employ enumerators
to make the listings and these enu-
merators are paid five cents each
for the names they turn in.

When school opens Dr. Green
checks the lists turned in with the
names of the children who are at-
tending school and it was found
that 1130 were not listed by the
enumerators.

This is explained in part by the
fact that sometimes people, believ-
ing the enumerators to be tax col-
lectors refuse to give them any in-
formation.

Richards Finds Huge Mushroom

Tony Richards and his son Tex
laid claim today to having found the
largest mushroom ever found in
Lawrence county. The mushroom,
which was displayed at The News,
weighed between 19 and 20 pounds.
Last year Richards and his son
found one that weighed more than
17 pounds. They discovered the
mushroom on a farm in the Enon
Valley section, they stated. It will
be canned for consumption this
winter, they said.

The mushroom, according to a
connoisseur in mushrooms, is of the
coral family. When examined it
was found to be in splendid condi-
tion. In fact, the connoisseur said
it possessed what would prove very
edible "steaks".

The Richards also displayed some
nice brown buttons and spikes—
which are the names for two other
species of mushrooms.

It is said there are about 400 dif-
ferent kinds of mushrooms.

Hazen Wins Out For School Board

Official Count Shows That He
Received Six More Votes
Than Mrs. Brenner

According to an official count of
the votes cast at the recent pri-
mary, Attorney Roy W. Hazen has
won the nomination for a place on
the school board, having six more
votes than Mrs. C. R. Brenner, who,
according to the unofficial returns,
was announced the winner.

Return judges, who have been
counting the vote, find that the er-
ror occurred in reporting the returns
from the seventh precinct of the
second ward. According to the un-
official returns, Hazen received 270
votes in this precinct, whereas the
official return sheet gave him 290
votes.

According to the official totals for
the office of school controller, Mrs.
Brenner received 4,696 votes and At-
torney Hazen 4,702. Attorney Ha-
zen is a present member of the
board.

Return judges have not yet com-
pleted the official totals for all of
the offices, but report progress.

"public-spiritedness of the many men, women and young people who have pledged themselves to give of their best in the campaigning this year."

Aiding Mr. Rentz tonight will be L. B. Round, chairman of the chest's campaign committee. Bert Wells, campaign director, and his son Lewis will also direct the work of mobilization. The latter two will describe the campaign plans.

Spread over the city today were conspicuous posters and window cards which served to remind the citizenry that its annual chest campaign is about to begin. Boy Scouts volunteered their services for distributing the display material. Theatres will project "support-the-chest" films into their programs throughout the week.

Benefiting Organizations.

Eight organizations will share the campaign pledges this year, including the following with their quotas: Boy Scouts, \$6,000. Girl Scouts, \$500. Jameson Memorial hospital, \$17,827.11. Margaret Henry home, \$5,500. Red Cross, \$4,300. Rescue Mission, \$4,000. Y. M. C. A., \$9,924. Y. W. C. A., \$9,500.

Of the remaining portion of the budget, \$4,500 will be appropriated to the administration of the campaign, including the all-year collection of subscriptions, while \$8,000 has been marked off for shrinkage, or for the non-payment of pledges made.

Organized as few Community Chest drives have been, this fall's mass team set-up eclipses the campaigns held in nearby cities during the past few years. Preparations for the prospect visitation were never so elaborate.

Heading the industrial division which is charged with soliciting the men of New Castle's industrial plants is R. W. Rowland and almost 600 workers, plant representatives, accepted the responsibility of enrolling their colleagues in industry. Other divisions have been assigned to schools, business offices and other places.

First Report Monday.

Leaving the Cathedral tonight, the campaigners will solicit prospects over the week-end and then return to the Cathedral to hear the first subscription report on Monday evening, October 16, at 6:30.

Report dinners are also expected to be held on Tuesday and Wednesday evenings.

"I am as anxious as you can be to get this relief money into the pockets of the unemployed through work relief, but I am also just as anxious as you can be that this money should go where it is most needed."

The letter contained information on highway work Ickes had requested from all governors. It also represented the governor's reply to critics who accused him of deliberately delaying road work in this state until early next year so that it might help him politically if he decides to be a candidate for the U. S. Senate.

The governor also informed Ickes that "red tape now unraveled at my repeated request" and the building of roads on the basis of unemployment needs was responsible "if there has been any delay" in the Keystone state.

black silk dress, with red buttons down the front of her waist and a smart black hat of the latest mode.

Kelly, a heavy set ex-convict, wanted for murder and robbery in several cities, tried to appear nonchalant, but his face was serious as the judge learned forward. Kelly's dyed hair stood out like a beacon, his yellowish-red hue giving him a grotesque appearance.

"Have you anything to say?" asked Judge Vaughn in a quiet voice. Cameras were whirling away. The spectators, jamming every nook and corner in the court room, held their breaths.

"No sir," said Kathryn, in a low, tremulous voice.

There was a brief pause and then Judge Vaughn said: "A jury in this court, after listening to and considering the evidence, have found the defendants, George R. Kelly and Kathryn Thorne Kelly, guilty of the charge of conspiracy to kidnap Charles F. Urschel. It becomes the duty of the court to impose sentence."

Prison For Life
"I therefore, sentence, George Kelly to the federal prison for the rest of his natural life. I also sentence Kathryn Kelly to the federal prison for the rest of her natural life."

Kathryn's lips trembled as the judge imposed the sentence, the maximum penalty. She had previously said that she "could take it with a smile," but when the judge pronounced his fateful words there was no smile on her pale, drawn face. She was devoid of make-up.

Before she sat down she turned slightly and she seemed on the point of tears as she spied Pauline Frye, her 14-year-old daughter by a former marriage, sitting in the front row of spectators near the reporter's tables. Newspapermen were dashing in and out of the court and the silence of a minute or two before had given way to a mild bedlam.

Pauline's head drooped. Asked by a reporter if she had any comment, she said simply: "No." She was attired in a black and white checkered suit with a hat to match.

Kathryn's last thoughts before she heard the bad news was of her daughter, anticipating that she was to be sent to prison for the rest of her life, she had had defense Attorney James H. Mathers draw up papers deeding her \$30,000 home, Fort Worth, Texas, and \$10,000 worth of furniture over to Pauline.

Kathryn, became philosophical after the bad news, which she had anticipated, had been broken to her by Judge Vaughn. To newspapermen she said:

"I didn't expect anything else. It was for that reason I had Mr. Mathers draw up a deed to my daughters for my personal property."

"I have only one request to make of the government. That is that I be sent to the same penitentiary as my mother. I don't think she has long to live. I don't think she can stand it. She really was innocent and I love her."

"I don't care for myself. I can take it. But I would like to be near my mother where I might have an opportunity—even only once in a while—to console her."

"I'll be a good prisoner if they do this for me. But if they don't I won't promise anything."

Nazi Student Takes Exam In Jail Cell

(International News Service)

PRAGUE—A jail cell was turned into a classroom in order to enable the inmate, Richard Schwab, to get his degree in chemistry.

Schwab, a student in the German technical university of Prague, is in prison for his Nazi activities. To pass his examination he would have had to be escorted by police to the university, since the university rules forbid the intrusion of police an academic soil. Therefore the professors decided to visit their pupil in jail and examine him in the presence of a magistrate and some police officers.

Schwab passed successfully.

The peremptory mandamus, issued by Judge R. L. Hildebrand commands French to furnish a true statement of his accounts to George R. Nagle, secretary of the board, within 15 days.

New Castle Field Club Observes Anniversary With Fall Round Up

A "Grand Fall Round Up" was indeed a most fitting title to the activities at the New Castle Field Club Wednesday, October 11, when the social committee members arranged a program lasting throughout the day in celebration of the tenth anniversary of the club for its membership.

In the afternoon, golf was featured, and to make it more unusual and interesting it was a "one club mixed foursome" with one-half combined handicaps being used. Twenty-four participated with both men and women taking part.

At 6:30 o'clock the guests were seated at tables arranged in the reception rooms where they were served a chicken dinner. Places were marked for 91. During the serving, dinner music that was most pleasing was rendered by the Fire-side String Ensemble which included the Messrs. E. E. Branstetter, leader, Michael Caruso, James Callahan, A. W. Bergstedt, M. R. Bassett and Gilbert E. Long. Their selections were well received. As this group concluded their part of the entertainment, the Blue and Gold Harmony Quartet, colored boys, in fifty regalia, filed in and favored the guests with some high class singing.

The next feature was the awarding of the door prizes with the lucky numbers being held by Mrs. D. C. Lindley and Earl Machin. Albert B. Street announced the winners and also introduced those on the program.

A coming magician of New Castle who has a very early start was the next to occupy the stage, Master Dike Blair. He held his audience with a number of clever tricks of magic that were well performed. He worked with the guests as a professional would, making articles disappear and producing others, etc.

Golf awards for the afternoon's contest were made to the following: Earl Machin and Mrs. James D. Crawford; T. F. Moorhead and Mrs. Keith McAfee; B. H. Kannenberg and Mrs. L. A. Patterson; F. S. Sovers and Mrs. J. F. Perelman; Dr. James D. Crawford and Mrs. Harold Pyle; J. F. Perelman and Mrs. J. B. Matthews; J. B. Matthews and Mrs. E. A. Fenton; Bob Preston and Mrs. R. W. Rowland; J. W. Waddington and Mrs. R. M. Garland.

In keeping with the celebration, T. F. Moorhead was called upon by toastmaster, Albert Street, to give the history of the club, the way in which it originated, when it was started, and completed. This being a project of May 10, 1921, with the golf course being opened on August 26, 1923, until the official opening. He told of the expenses and how

committees appointed, co-operated in performing their duties.

As the closing attraction which was the most eagerly awaited was the dance and singing act of "Sally Rand giving her famous fan number." W. S. Wheeler gave her a most appropriate introduction, and when the dancer appeared hidden behind a green feather fan and a white feather muff, it was no other than little Miss Maxine Taylor, six year old daughter of Mrs. Rachel Taylor.

Her numbers were "Shuffle Off To Buffalo" and she gave her encore "Hold Me" with her mother accompanying at the piano.

Bridge filled in the remaining hours. Prizes for the ladies went to Mrs. Louis Sandler, Mrs. T. W. Dickey, Mrs. Harold Pyle and Miss Elmer. The men's prizes were awarded to L. H. Patterson, C. Ed. Smith, Jr., Harold Pyle and Earl Machin.

STATE AID FOR HOSPITALS

URGING that legislative action for relief of the 220 private hospitals in the State of Pennsylvania be included in the deliberations of the legislature at the coming special session, a committee of five trustees representing thirty-nine institutions in the Pittsburgh district issued a statement setting forth the urgent reasons why additional help should have the approval of the governor and the legislature.

The committee also advocated the support of the \$25,000,000 bond issue which would place in the hands of 163 voluntary hospitals \$2,231,365 at once. There is no question as to the pressing need of aid for the hospitals of Pennsylvania. Unless such aid comes from the state many of the institutions will be forced to close their doors.

During the years since the beginning of the depression the voluntary hospitals of this state have stood more than their share of relief work. The title "voluntary hospitals" refers to those institutions which are not conducted for profit, and are not owned, controlled or operated by the state or any of its municipal divisions.

These hospitals, struggling under the increased burden brought about by the economic situation have survived only by spartan methods in economical operation. There is a limit however, in the matter of economy in hospitalization beyond which no institution can go. With the increased cost of food, medicine and other necessities, the hospitals have reached the end of their resources. Unless aid is forthcoming from the state authorities, countless institutions will cease to function. As the committee of trustees have pointed out "hospital care for the needy poor is essentially a function of government, not of private charity. Yet in Pennsylvania hospital care is very largely provided by the voluntary hospital."

In a resolution adopted by the representatives of hospitals in this area, it was said: "Unemployment is still acute; winter, with its attendant sickness and epidemic possibilities, is fast approaching and unless something is done to put the hospitals in shape to meet the demands that will surely be made upon them, a serious situation will arise in many communities. We are appealing to the trustees and friends of every voluntary hospital in Western Pennsylvania to do active work for the approval of the bond issue."

The proposed bond issue for \$25,000,000 for state relief, which includes the hospitals, should be approved. The state cannot escape the responsibility of caring for the needy sick. In no other way can the state meet the situation more economically than by preserving, as going institutions—the voluntary hospitals. The people, the legislature and the governor should realize the seriousness of the situation, and the urgent need for hurried action. Relief is the first step and after that more state appropriations.

PREVENT FOREST FIRES

In line with President Roosevelt's plan our industries have been asked to study the law of supply and demand, and production and over-production; our farmers have had their acreage cut so as to adjust more nearly the supply to the demand. On the other hand, hundreds of thousands of young men have been sent into the forests in what primarily was a campaign to give them employment, but which might well be continued in order that our future lumber supply may be equal to the future demand.

The 125,000,000 people of the United States annually consume nearly half of the world's output of timber and more than half of the pulp paper produced, so it would not be amiss to turn back into forests some of the surplus fields now devoted to the over-production of cotton, wheat and corn.

This constructive planning will go for naught if we continue to burn up our forests. What is the good of building up only to burn down? It is to the interest of all of us to guard against careless use of matches, smoking materials and campfires which so often lead to this destruction.

Especially now, during National Fire Prevention Week, let us give thought and attention to these matters.

A PROMISING MOVE

In taking steps to provide machinery for the settlement of disputes between employers and workers, the federal government is moving in the right direction. Unless remedial measures of some kind are employed, the success of the entire recovery program will be threatened.

According to Senator Wagner, of New York, one of the prime movers in the undertaking, a national labor mediation board will be created. It will have branches in 15 industrial centers. The branch groups will have primary jurisdiction in the adjudication of labor disputes, while the central or national board will function as a court of appeals to review decisions of the district boards upon request.

Details of the plan were discussed at a conference in New York of Senator Wagner with General Johnson, national recovery administrator, and Miss Frances Perkins, secretary of labor. A letter from the Merchants' Association of New York was read, the letter declaring "there has been at no time in the history of greater New York so many people on strike as at present."

A similar condition exists throughout the country. Little real progress toward recovery can be made as long as this continues. Harmonious relation between labor and capital is necessary to avert a fresh setback. If the two sides in any particular industry in which a dispute arises are unable to settle the question between themselves, there ought to be available some unbiased agency capable of mediating.

The government intends to provide such an agency. The quicker it is done, the quicker will the recovery program be rid of one of the most serious threats facing it.

If people would only pray as hard to avoid war as they pray to win one.

LITTLE DEATHS

Pettiness is the worst sin. When I think back, with remorse, over faults and failures, it is always some little thing that hurts me most deeply, makes me wince to remember. Always some petty departure from the way I should have lived.

It may be some small sin that nobody remembers; that hardly anybody noticed at the time. But for me, looking back, it looms large and makes the flash of shame come over me. Makes me wish I had been bigger, less peevish, grander in my failures.

It is the slow accretion of these little weaknesses, the petty failures that wreck a man finally and turn him into a hollow replica of a human being. It is this that spoils a friendship, destroys marriage. . . . Many a wife says to herself: "I could stand it if he beats me or was a drunkard, but I cannot endure this smallness that eats away so persistently at our happiness."

Many a husband thinks: "I could stand her if she had a blazing temper, but I can't live with this everlasting whining. What man could?"

The poet sings: "Keep away from the little deaths." The sage in the jungle says: "Beware of the soldier ants that overwhelm you and climb into your mouth and nostrils and eat your brain away and drive you mad." . . . Keep away from the mosquitoes, keep away from the gnats, keep away from all the little, annoying, everlasting pettinesses that sting a man's happiness away.

The difference between two men, between a little man and a great man, between a happy man and a miserable man, is always slight, but the difference is the most important thing in life. You do not notice it at once, but after a while you see it clearly and you turn to the big man and leave the small man to his smallness. And when you think back over your own life, you do not regret your great and disastrous errors nearly as much as you blush for your little sins.

HELP WHEN HELP IS NEEDED

Perhaps you have been impressed by the fact that when you did not need help from your friends, it was most often proffered.

At times when it might have been possible for these friends to do much for you, only a few, if any, volunteered to assist you.

This is not surprising, but is what happens to everybody. It's human. Consider what you have done in the past yourself.

While friends were prospering, you offered tips that you thought might prove beneficial financially.

When they were down and out, did you suggest any ways to make money?

It is sad but true that the one unalterable motion for success is the one who receives the larger number of pushes, while the one who needs them most gets the fewer boosts.

Most people wish to be ingratiating to those appearing successful.

The reverse is true when demands are likely to be made from those needing help.

There is no desire to have money solicited to give the other a start.

But real friendship should make men willing and anxious to help with money or whatever else will help, if at all possible to extend aid.

SEA-SONGS
I've heard them sing their chanter song, ye-ho, boys, ho!

But I like it better on the stage than where the billows flow,
For I've been out with sailor-men upon the deep blue sea

And one good northern hurricane was quite enough for me.
"Ye-ho, boys, ho!"

When the wind begins to blow!
I'd rather hear it on the stage than the Gulf of Mexico.

I love a good old chanter song and a hornpipe pleases me,
But I'd rather get them from the stage than a wind-tossed angry sea.

For I've pitched and tossed with sailor-men when the night was black as coal,
And I've no desire for a chanter song when the ship begins to roll.

"Ye-ho, boys, ho!"
When the wind begins to blow!

I'd rather hear it on the stage than the Gulf of Mexico.

For a day and a night we stood on end, first aft and then the bow,
And how we managed to stay afloat I don't remember now.

I only know that I had no taste for food and no ear for song,
And there's little joy in a chanter tune when the sea is running strong.

"Ye-ho, boys, ho!"
When the wind begins to blow!

I'd rather hear it on the stage than the Gulf of Mexico.

The store advertisement that attracted most interest of the week in New York, however, was a full-page statement of R. H. Macy's position in regard to the sale of German goods.

The story was told in correspondence between a customer ("I have withdrawn my patronage from your store . . . until you have entirely eliminated all goods made in Germany . . .") and Macy's president, Percy S. Straus, who wrote in part: "Our purchases in Germany have rapidly diminished and are now being confined to that type of merchandise which we cannot obtain elsewhere, particularly such things as china and glassware, in which we have open stock patterns, which we are obligated to maintain for hundreds of customers who need replacements. Ninety-five per cent of all our sales are of American-made goods . . . All German goods which

we sell are clearly marked with the name of the country or origin and no one need buy German goods. We do not press them for sale or advertise them. . . . The subject of our handling German goods is continuing to receive careful attention."

Following a response from the customer ("The views expressed by you are beyond reproach . . ."), the advertisement reproduced a recently published news story which—strangely enough for a Macy ad—revealed Macy lined up with 19 of its principal competitors in a policy of minimizing German purchases without declaring an absolute boycott.

Not much reading between the lines is necessary to show with a difficult problem is involved for the stores.

President Roosevelt's speech to the convention of the American Legion on the subject of veterans' compensation, and the response of the Legion favorable to part of his program are strongly commended by the country. Mr. Roosevelt's statement of the national needs arouses enthusiastic approval, while it is believed to have been made clear that the greater proportion of the veterans is aligned on the side of conservative action.

"It is very apparent that the legions are working in harmony with the president," says the ALTOONA MIRROR, and the Legion's complete sympathy with Mr. Roosevelt's purposes is attested by the TOPEKA DAILY CAPITAL and the YAKIMA DAILY REPUBLIC. The HARTFORD TIMES believes that "his re-assertion of a correct principle is historic in its effects, straight in its logic and fully appreciated by the people." In opposition to this view, however, the SIOUX FALLS DAILY ARGUS-LEADER raises the issue as to economy, adding: "We can find no justification for a flat denial of the veterans' payments while money is being spent so lavishly elsewhere."

In the debate over government care of non-service disabilities objection is raised to the creation of a favored class by the HAVERHILL GAZETTE, the SAN ANTONIO EXPRESS and the TOLEDO BLADE. The YOUNGSTOWN VINDICATOR holds that "men who show their patriotism by going to war must continue to show it by working for their country and making no undue demands upon it in time of peace." The president's courage in presenting his arguments is lauded by the CHARLOTTE OBSERVER, the NEW YORK SUN, the NEWARK EVENING NEWS, the COLUMBIA (S. C.) STATE and the NEW YORK TIMES.

"The manner with which the Legion convention greeted the enunciation of his theory," in the judgment of the OAKLAND TRIBUNE, "is direct and eloquent answer to the many who have accused the former soldiers of asking for more than their share of the nation's resources." The president's postscript to the effect that when local communities or states are negligent in their duty to men who wore the uniform and are in need, though through no war cause, the federal government recognizes its responsibility, is one to be welcomed.

The president's statement was "clear and direct," according to the AKRON BEACON JOURNAL, was "a personal appeal to a group of patriotic, responsible citizens," and "an outstanding move of statesmanship," to the CLEVELAND NEWS, while the DAYTON DAILY NEWS welcomes a "clarifying address." The SANTA MONICA EVENING OUTLOOK describes it as "a remarkably strong and convincing appeal for unity and cooperation." The president is credited with "a great public service" by the GARY POST-TRIBUNE, with "a heart-to-heart talk" by the CINCINNATI TIMES-STAR, with "voicing the sentiments of the great majority of his countrymen" by the ROCK ISLAND ARGUS, with "truth and sincerity" which "struck home" by the ATLANTA JOURNAL, with voicing principles "based upon honor and love of country" by the COLUMBIA (MO.) TRIBUNE, with acting in accordance with "sound politics," by the BUTLAND HERALD, and the ROCKFORD REGISTER-REPUBLIC holds that his utterances "may prove a determining factor in any fight which may develop three months hence in Washington."

Case Against Senator James J. Davis Is Ready For Jury Deliberation

(International News Service)
NEW YORK, Oct. 12.—Assistant U. S. Attorney Louis M. Treadwell today delivered the prosecution's closing argument in the trial of U. S. Senator James J. Davis of Pennsylvania and Theodore G. Miller, charged with violating the federal lottery laws in 1931 in connection with charity balls sponsored by the Local Order of Moose. Davis is director general of the order and Miller the head of its propagation department.

In contrast to the emotional appeals made yesterday by defense counsel, Treadwell spoke in a matter of fact tone, reviewing the testimony in a conversational manner. Because of the holiday, only a handful of spectators were present. James J. Davis, Jr., the senator's 18-year-old son, sat with his father. The case was to go to the jury this afternoon.

Refunds Part Of 4th Liberty Loan

Treasury To Issue 3 1/4 Per Cent Bonds Instead, Saving \$19,000,000

WASHINGTON, Oct. 12.—The Treasury Department took the financial world completely by surprise late Wednesday when it called in \$19,000,000 of the fourth Liberty 4-1-4 per cent bonds, issued in 1918 and due Oct. 15, 1938.

In announcing the call, which will save the government almost \$19-

000,000 in interest. Undersecretary Dean Acheson said the treasury next Monday would offer an issue of 3-1-4 per cent bonds callable in ten years and maturing in twelve years. For the first year they will pay 4-1-4 per cent interest.

At the same time, Acheson said \$500,000,000 worth of the new issue would be offered to the public next Monday at 10 1/2 plus interest.

Bonds Open Monday
Purchasers of the new bonds may tender in payment either the called bonds or the balance of the uncalled bonds of the fourth Liberty Loan, Acheson said, adding:

"The books will open Monday and if they don't stop up quickly the books may close sooner than expected."

The bonds called are almost one-third of the entire fourth Liberty Loan, amounting to \$6,268,000,000 and are in Series J, K, or A. The fourth loan was in ten series of approximately \$625,000,000 each.

Draw Numbers From Bowl
Just which bonds were to be called were determined late today by drawing numbers from a bowl. Ten envelopes rolled into tightly wrapped pellets were placed in the receptacle. Acheson with little formality, extracted three of them. Their contents included a figure and a letter identifying the bonds called.

These are bonds bearing the letter A with a serial number ending in the digit 1, the letter J and final digit 9, K and O. All unretired bonds with serial numbers ending in 1, 9 and 0 were called. The unretired bonds were the temporary bonds first issued, a quantity of which never was exchanged for permanent bonds.

Interest rates and the cash sale price of the new bonds were determined in a manner calculated to prove least disturbing to the bond market. The last government issue, with interest at 3 1/2 per cent is currently quoted at 101 and a fraction. The fourth Liberties have been selling for 103 and a fraction. With the new bonds to be sold at 101 1/2 and draw 4 1/4 per cent, the first year and 3 1/4 per cent subsequently, officials placed the cash price at a level close to the market value of the previous issue and allowed the market a year in which to adjust itself to the difference in the yield between the Liberties and the bonds replacing them.

Biddle Declares Public Funds For Relief Must Be Given To Strikers

(International News Service)
HARRISBURG, Oct. 12.—Persons participating in strikes must be supported by public funds, Eric Biddle, executive director of the State Emergency Relief board, notified all county board today.

The ruling was adopted, Biddle said, in a resolution passed by the State Emergency Relief board and forwarded to the federal authorities who promulgated the details for putting the policy into effect.

Under the federal ruling the fact that a wage earner is on strike must not be considered by local board in giving relief orders. Only rules that a strike is "unreasonable and unjustified" may relief be withheld.

Couple Embark On Matrimonial Sea With Little Cash But Brave Hearts

On Wednesday a colored couple from Ohio applied for a marriage license at the prothonotary's office. Both were of age and there was no hitch in the proceedings, until the license was made ready and handed the couple, with the information that that cost was \$2.50.

The young man fumbled around nervously in his pockets and then announced that he did not have that

much money. The prospective bride did not appear to have it either, as she made no effort to pay. The man announced that he would have to see what he could do, and would be back later. The couple left.

In less than half an hour the couple returned with \$2.50, presumably having found "A friend." The money was handed over to the clerk, and the couple left, ready to set sail on the great sea of matrimony.

Large Increase Seen In Driver Applicants During Past Summer

Providing the number of candidates for motor car operator's licenses is a criterion of improvement of the times then improvement is headed this way as during the past several months there have been increased numbers of candidates taking the tests conducted by the State Highway Patrol, here.

The squad which conducts the test early this summer consisted of two patrolmen. The squad was increased to three and now four are kept busy from 10 a. m. until 3 p. m. The permanent officer in command is Corporal L. C. Hanks. At present he is at Hershey, Pa., State Highway patrol school, taking advanced patrol work.

Some persons enter the office quite nervous but within a moment or more their nervousness is dispelled by the courteous, efficient manner in which the patrolmen go about their work. The candidates are requested to show the car owner's card, the card of the licensed driver who helped instruct them and their learner's permit.

These records are taken down to become a part of the learner's records for the files of the bureau of motor vehicles, department of revenues after which the learner is asked if he is crippled in any manner. He must tell the truth. He is also questioned concerning his vision.

The next move is to have the prospective operator read from a chart. The result shows how good his vision is and every line which he reads is really a lesson concerning the operation of another car. After this the candidate is given the color test.

Following this examination the

applicant accompanies the examiner. The automobile is inspected. The lights must be focused right, the windshield wiper must work properly and the tail lights show up. The officer takes notice whether or not the car has been inspected.

Should he discover anything wrong with the mechanical part of the machine no further test is given until the defect or defects are remedied at an official station. Providing the car is found all right, they enter the car.

He instructs the person taking the test to start the car so the driving skill of the learner can be ascertained. The driver must turn the car. It is here that many fail. Some of them run over or back over the curb.

After the driving test is completed the patrolman asks many questions concerning the Pennsylvania motor laws. All applicants must know the law. There is no skipping by the highway patrol examiners of any duty and they do not employ any tricks to catch unwary learners.

After the questions are asked and answers given the patrolman decides whether or not the candidate should receive a driver's permit. If in the affirmative he is given a card. A stamped notice of his success is placed on the learner's card. His regular operator's card arrives a few days later. Should the applicant fail he is given the option of taking the test again, if not here, at any other place the highway patrol operates.

May Have To Buy New Garbage Truck

One Truck Owned By Garbage Department Out Of Commission

As one of the city health department trucks cannot be operated anymore, according to superintendent of the collection and disposal of garbage, H. M. Phillips, it is likely that D. O. Davies, city director of the health department, may ask councilmanic colleagues to secure another truck when the 1934 budget is prepared.

During the winter collection of garbage falls off, but during the summer and canning season it is exceptionally heavy.

The city tin can collecting truck operated recently for several hours at night.

Many Garments Distributed By Red Cross Here

Tremendous Demand For Clothing Exists According To Requests Made

When the work of distributing garments among the unemployed of the community started the first of September, the Lawrence County Chapter, American Red Cross, was swamped with requests for clothing.

The only organization in the field engaged in this work, the burden of supplying clothing from the stock sent here from national headquarters of the Red Cross has fallen on the local chapter.

The total number of garments distributed for the month was 6,819.

Troop To Stage Rodeo Program At Greenville

Under the watchful eyes of Governor Pinchot and hundreds of other spectators, Troop F, under the leadership of Capt. Harvey G. Bintrim will stage a rodeo at Greenville this afternoon, in connection with the big community celebration, when a public park, built by unemployed labor, will be dedicated.

All the troop mounts, 31 in number, will be taken, along with a detail of riders, and the complete show of the troop will be staged.

Applications for clothing total 2,266 at the present time, and the present supply will be far inadequate to meet the demand.

In addition to distributing clothing and yard goods locally, a supply has been sent to the following rural communities for distribution: Castletown, West Pittsburg, Ellwood City, and Hillsville, while scattered districts in the county are being taken care of through the chapter office.

The work of distributing these garments has been under the supervision of Mrs. David Kay, chairman of the Red Cross Garment committee, and a group of volunteer workers, all of whom serve without any recompense.

Taste really fresh coffee by trying one of the A & P Coffee Trio—ground to your order when you buy it.

These three coffees differ only in flavor. Choose the one that suits your taste. The quality of each is the same, the finest that money can buy. And remember, the coffee you like best is the best for you no matter what it costs.

Negro Slayer Is Lynched By Mob

Louisiana Mob Lynches Bromo Jackson For Alleged Killing Of White Girl

(International News Service) LABADIEVILLE, La., Oct. 12.—From a bridge high over the Bayou Lafourche, a lynch mob early today hanged Bromo Jackson, negro, for the alleged murder of Louisiana Lashbro, a 15-year-old girl.

Silent as the night that overhung the bottom lands, the mob stole stealthily upon the jail shortly before midnight, overpowered the jailer and snatched the negro from his cell.

Monday the body of comely Louisiana Lashbro, her throat slashed from ear to ear, was found in a sugar cane field and Jackson was implicated.

Negro Confesses. The mob rushed the frightened, jabbering victim to the Bayou Lafourche bridge and, authorities charged, tortured him into an admission of guilt.

Then, rope loop around his neck, the negro was hurled bodily into space.

Two Organizations To Use Auditorium

School Board Grants Requests For Use Of Ben Franklin Facilities

Permission was given to two organizations Wednesday night by the New Castle School Board to use the Benjamin Franklin Junior High School auditorium.

The first request for the auditorium came from St. Vitus Parish, and

was presented by Rose Clotto and Mary Amadio. The parish wishes to present a Girls' Minstrel on the night of November 17, the proceeds of which are to go for Christmas boxes and baskets for the needy of the parish.

The second request was from the Engineers Society of New Castle which desires to use the auditorium on the night of November 20 for a Safety Rally. Both requests were granted but in granting the permission the board laid down a new rule.

Any organization using the auditorium and charging admission for the performance must expect to pay the janitors needed for the evening, \$1.50 each for the overtime put in.

The matter of payment for the janitors was brought up by Director J. H. McIlvenny who said, "the janitors work long enough hours without asking them to work at nights, free, for performances. They should be paid for this extra labor." The board agreed with him and passed the rule.

Quick Relief Now From Neuralgia

JACK, I'M TO SEE CLARK ABOUT THAT BIG ORDER IN 40 MINUTES AND I HAVE TERRIBLE NEURITIS... WHAT CAN I DO?

DON'T WORRY! GET SOME BAYER ASPIRIN. TWO TABLETS WILL STOP THAT PAIN IN A FEW MINUTES.

2 LATER

WELL, JACK, I GOT THE ORDER! YES, FELT FIT AS A FIDDLE... YOU BET, I'LL ALWAYS GET BAYER ASPIRIN WHEN I WANT QUICK RELIEF FROM PAIN.

Real BAYER Aspirin Starts Taking Hold in Few Minutes

Here is quicker relief from pain—the fastest sale relief, it is said, ever known. This is due to a scientific discovery by which BAYER Aspirin starts "taking hold" of pain a few minutes after taking.

The illustration of the glass here tells the story. A Bayer tablet starts to disintegrate or dissolve—go to work—almost instantly. This means quick relief from pain—fewer lost hours from headache, neuritis, rheumatism. And safe relief. For genuine Bayer Aspirin does not harm the heart.

When you buy, see that you get the genuine Bayer Aspirin. The best way is never to ask for aspirin by the name "aspirin" alone. But if you want Bayer Aspirin's quick relief always to say "BAYER Aspirin."

WHY BAYER ASPIRIN WORKS SO FAST

Drop a Bayer Tablet in a glass of water. Note that BEFORE it touches bottom, it has started to disintegrate. What it does in this glass it does in your stomach. Hence its fast action.

Does Not Harm the Heart

Board Refuses Tax Exoneration

School Treasurer Instructed
To Take Drastic Steps
To Collect

PERSONAL TAX TO BE COLLECTED

No exoneration of 1932 personal taxes was granted by the New Castle School Board Wednesday night when City Treasurer L. W. McClung again presented the list of uncollected personal taxes in the amount of \$57,611.23. The board is adamant that further attempts be made to collect more of the taxes and the list referred to McClung again.

"I am against exoneration of a property owner from the payment of this personal tax," said A. C. Hyde. "It is unfair to the fellow who is paying his taxes."

"Have you made any further efforts to collect the personal taxes?" asked Roy W. Hazen. McClung said he had.

After some discussion the board insisted that Mr. McClung take some drastic steps to collect more of the taxes and suggested that he advertise a thirty day period in which people would be permitted to come in and pay the tax. After that, McClung is to take drastic steps to collect it.

The "drastic steps" could take either of two courses. One would be to imprison the taxpayer who refused to pay and the other would be to sell his personal goods.

Declare Supposed "Strikers" Are Not Plant Employees

(International News Service)

YOUNGSTOWN, O., Oct. 12.—Officials of Republican Steel Corporation today denied that any of the 130 chippers who "went on strike" yesterday were at present employed by the company.

The "strikers" attempted to picket the plant and bring out the rest of the employees but their efforts failed.

It was explained by the company that the 130 men, all of who claim membership in the Steel and Metal Workers Industrial Union, a communistic organization are former employees, not on furlough.

During the July peak about 225 chippers were employed but now only 90 are needed, company officials said. All of the 90 are at work they claimed.

Members, Former Members And
Pastors Assemble For Dinner
And Services

PULASKI, Oct. 12.—Sunday, October 8, was home coming day at the Pulaski Presbyterian church and it proved to be a most delightful occasion. About 50 of the former members of the church returned for the day. The oldest visiting member was Mrs. Martha Edeburn of West Middlesex, who joined this church 74 years ago. The second in point of both age and membership was D. M. Clark of Mt. Jackson, who is a veteran of the Civil war. The largest family delegation was the Faulkman family which had 16 representatives present.

The morning worship was conducted by the pastor, Rev. William A. Parsons, D. D., who preached from I John 1:7 on the subject of the "Communion of Saints". At 12:15 about 100 guests sat down to dinner in the artistic dining room of the church of which the congregation is rightly proud. The dinner was served by the ladies of the church. The floral decorations were beautiful and elaborate both in the auditorium and the dining room and were contributed by the flower lovers of the congregation and arranged by the flower committee which consists of Mrs. Mary Jennings, Mrs. L. L. Rodgers and Miss Burdette Stevenson.

The afternoon service was the climax of the day. Greetings were read from former pastors and members. The one from the greatest

distance was from Rev. Adolph R. Schultz of Montone, Calif. Dr. S. L. Kirkbride delivered a pleasing reminiscence address and the Rev. C. M. Junkin of Winter Park, Fla., spoke on "The Upper Room", and gave a most beautiful delineation of the fellowship of believers with their Lord. This service ended with the Lord's Supper. The Rev. William T. McKee of Chester, W. Va., was to have presided at this part of the program but was prevented by a serious cold. In his absence the pastor presided and was assisted by Rev. William P. Byers of New Wilmington and the Rev. W. J. Holmes of West Middlesex.

The music for the day was furnished by both the young people and senior chorists. The special music was furnished by Mrs. John Neal, Mrs. Frank Gearhart, Mrs. Preston Buchanan, Mrs. Fred Wallace, Don Gibson. One of the pleasing features was a violin prelude by Ruth Wilson, accompanied by Yvonne Garrett.

Mrs. William Parsons presided at the piano and was in charge of the music.

Doctors recommend it

Snow-white, greaseless, Noxzema promotes skin beauty Nature's way—through skin health. This penetrating cream rids the skin of hidden poisons that cause blemishes—its rare medicines soothe and soften the skin—its ice-like, stimulating astringents shrink the coarsened pores to exquisite fineness.

Make your skin fresh and clear quickly—by following this simple beauty plan for 15 days: Massage Noxzema into your skin at night after removing

make-up. (If your skin is dry or flaky, apply several times, as much as the skin will absorb.) In the morning wash off with warm water, then cold. Then apply a thin layer of Noxzema as a foundation for your powder. In this way Noxzema works all day and all night. Continue using Noxzema until every beauty-marring skin flaw disappears!

WHAT makes anything taste better? It's what is in it that makes a thing taste better.

CHESTERFIELDS taste better because we buy ripe tobaccos. These ripe tobaccos are aged two and a half years—thirty months. During this time the tobaccos improve—just like wine improves by ageing.

CHESTERFIELDS taste better because they have the right kind of home-grown tobaccos and Turkish Tobaccos "welded together."

We hope this answers your question.

Suit To Recover For Fall In Store

Case Of Bessie Fennick Against Furniture Company On Trial Today

The case of Mrs. Bessie Fennick of Washington township against Herman Cohen, trading as the New Castle Furniture Company, is on trial at court today before Judge James A. Chambers. Mrs. Fennick is asking for damages for injuries sustained in a fall in the defendant's store in this city on April 9, 1932.

According to her story she was walking toward the back of the room to look at some linoleum when the heel of her shoe caught in a furnace register and she fell. It is alleged that the holes in the register were too large and that it was defective.

Mrs. Fennick claims to have been laid up for some time as a result of the fall. Mr. Cohen testified that Mrs. Fennick had wanted him to settle with her, but that he did not believe that he was responsible for the accident.

POLITICS AND POLITICIANS

It is the duty of each and every voter to familiarize himself or herself with the affairs of our government and to participate personally in politics. Unless he does so, he has only himself to blame if the wrong candidates are nominated and elected. All of those who take an active interest in politics are in fact politicians even though they do not themselves run for office and though they do not endeavor especially to impress others with their political views and opinions. It is not necessarily a reflection against a man's character to call him a politician and the title "politician" should carry with it just as much distinction as the title of doctor, lawyer, minister or what not. We do not have too many politicians in this country; we have too few.

NOTE: The above is the second of a series of four short articles on politics written by W. J. Baer, candidate for District Attorney. The third will appear in the issue of The News for Tuesday, October 17th.

New Castle-Washington Prepare For Battle

Washington High Will Endeavor To Halt "Hurricane"

Washington High Will Try To Put Crimp In New Castle's Winning Streak

Coach Phil H. Bridenbaugh Will Have New Castle Team At Full Strength

Washington High School football team will come here Friday night imbued with the idea of stopping this New Castle football team's mad dash toward another Class AA championship. When the two schoolboy teams tangle at Taggart Field Friday night under the flood lights there should not be very many vacant seats. The game starts at 8 o'clock. The gates will swing open at 7 o'clock.

It is no secret that Coach Bill Cox has been pointing his Washington High team for this New Castle game. For weeks now Cox has been grooming his Little Presidents for the big tussle with Bridenbaugh's eleven at New Castle. Last week the Washington High team ran into a tangle in Clairton High dropping by a close score. This week they hope to be on top.

Conference Game This will be the second Class AA game for New Castle and one that is needed very badly, if the New Castle team is to stay up at the top of the heap along with New Kensington.

Washington and New Castle have had some merry old battles on the gridiron and this year is to be no exception, by indications for Washington has been waiting for this chance to even up scores for quite a long time, and they say down in Washington that Phil Bridenbaugh and his "Red Hurricane" will get the surprise of their lives when the Washington team takes the field Friday night. They scoff at the record of the Little Presidents to date. Records don't mean anything, it's New Castle we're ready for this year. Is the feeling on the Washington High team.

Strongest Lineup New Castle High will have their strongest lineup available for the game here tomorrow night. There will only be one regular out of the battle, and that is Charles Fleming, the left end. Fleming's place will either be taken by Mike Perrett, Harry Tuscano or George Kneram, and all three of them are anxious to get the starting nod. Joe Howley will no doubt be back at his starting post at center, and Bridy's worries about that snapper-back berth will be over for a time anyhow. Howley is developing into one of the most valuable players on the

team, he is quick at diagnosing plays and is a deadly tackler and great defensive man.

The New Castle backfield Friday night will contain Captain Walter Komic at fullback, with Nickum and Lane at the halves to start the game, and Charles James ready to go in at anytime. Ridley will be in there calling signals.

If the weatherman only provides a nice night, the stadium will no doubt be jammed. Washington always draws a crowd. There are about 600 or 700 fans coming here from Washington, Pa., for the game.

Union Wants To Upset Grovers

Union Hi Will Fight Hard To Take Measure Of Grove City Here Saturday

TAGGART FIELD
SCENE OF GAME

Union High School football team hopes to upset the well laid plans of Coach Joe Hartman and his strong Grove City High football team at Taggart Field Saturday afternoon. The Unionites have spent many long hours this week preparing for the biggest game on the schedule. The kickoff Saturday is due for 2:30 o'clock.

Grove City and Union are rivals of three years standing. Union won at Grove City 7 to 6, and then 13 to 7, and last year the two teams did not meet. Union wants to win the "rubber" game here.

Biggest Game Owing to the fact that this is the biggest game on the 1933 card for Union at home, it was deemed advisable to secure Taggart Field for the game and permission was granted by the New Castle School Board.

In event Mister Weatherman gives the Union team a "break" Saturday the stands should be rather well filled. Grove City will send several hundred fans to New Castle for the game. Union High can be depended upon to support their grid team. Union came out of the New Castle engagement last week with only one serious injury, that of a broken collar bone by Henry Bozar. Coach Boyd has been using Morrison and Saunders at the left-halfback job this week.

BOWLING

LAWRENCE-BEAVER TENPIN The Union team of New Castle defeated the Union team of Beaver Falls last night two out of three matches and thereby retained first place in the league standing. Howarth of the Beaver Falls team had high score of 222.

Atkinson Beats Steve Nicklich

Hands Lacing To Pittsburgh District Golden Glove Champ

DROPS NICKLICH SEVERAL TIMES

(Special To The News)

ELLWOOD CITY, Oct. 12.—Steve Nicklich may be a golden glove champ, but champ or no champ, he's several knockdowns short of being as good a fighter as the tigerish Ray Atkinson, who beat Steve in a trio of vicious rounds before a crowded Shelby Social Club.

Coming out of a flurry of punches in the opening chapter, Ray leaned a right on Steve's chin and dropped him on the ropes. He took a count of nine.

Atkinson chased him across the ring and dropped Steve again, but on this trip to the canvas Nicklich got up without a count, only to be punished for the error by being floored a third time. He took a count three times in the opening stanza, the fact remains that it was a bitter, vicious fight and Nicklich did some punching himself. However, his blows did not have the zip Ray's carried. In the second Atkinson darted across the ring. He was met with a straight left to the face and jarred to his heels. They slugged and Atkinson dropped Nicklich a fourth time. He took a nine count. Eager to finish his man, Atkinson leaped across the ring just as Steve arose, and Nicklich dropped to the canvas and stole a count of nine.

Ray Can Take It Atkinson won the round by a wide margin, but in the third things were different. Yeah, some of the boys were worried about Atkinson, as he fought wild.

He wanted to put over a knock-out and swung wild, which was exactly what Steve wanted him to, and in a second Nicklich took command of the fight.

Steve shot lefts and rights to the head and body and hammered Ray when he went to the ropes, but Atkinson snapped out of it and with well directed shots to the chin drove Steve to shelter.

It was a great fight—one of those Adamo-Atkinson battles, and Atkinson wanted to win so he could take on Custy Morini at New Castle Monday night.

All the fights were good, thanks to Joe Latiano, the efficient matchmaker, who deserves a bale of compliments for flashing such a good show.

Flashy Joe Wins Joey Evans of Ellwood, who happens to be the 122-pound champ hereabouts, took some laurels away from Charles Desanto, the Pittsburgh champ. Joey showed Charles what it was all about.

The reason why Evans won is contained in the fact that he used his brain, hands and feet. Desanto used his brain and feet. He did very little punching until the third round.

A couple of cupfuls of gore was spilled in the Tony Cerra-Keith Goodballet middleweight fight, and Cerra won. It was a battle that brought grueling action in the final chapter.

Pete Boy of Ellwood unfurled a knockout. He leathened Kid Mack, then let loose a right that bumped against Mack's chin and the Kid's fighting was over for the night. They are wetters.

Charles Arkett of West Pittsburgh won a decision from Sam Cretella at 135 pounds. It was a close fight. Arkett's second round showing earned him the judges' decision.

but many of the fans believed Mazur should have had the award. Mazur had the edge in the first chapter and hurt Klenka the second. However, he did not follow up his advantage. In the third Klenka flashed, Mazur tired and Henry got the decision.

Tommy Jones of New Castle was the third man inside the ropes and the judges were Lew Brady, New Castle, and Joe Dougherty, Ellwood City. The timer was Tommy Newman. Ray Eberle was the announcer.

Custy Morini got a big hand when he was introduced as an opponent of Atkinson at the Castle Bowl Monday night.

JOE CRONIN IS SECOND CHOICE

(International News Service)

WASHINGTON, Oct. 12.—Jimmie Fox, first baseman of the Philadelphia Athletics, who displaced the mighty Babe Ruth as home king of baseball today was selected the most valuable player in the American League for the 1933 season.

The selection is made annually by a committee of the Baseball Writers Association of America. Fox received a total of 75 points out of a maximum of 90. This is based on the award of 10 points for first place, nine for second, eight for third and graduated to one point for tenth place.

Four votes went to Fox for first place, three for second and one for fourth.

Cronin Is Second Joe Cronin, 27 year old short stop and manager of the Washington Senators, American League pennant winners, was second in the balloting with a total of 62 points. Promise Action Galore Monday

Sixteen Punchers Will Meet In Eight Bouts At Castle Bowl

FOUR NEW CASTLE BOYS TO BATTLE

There's no question but high school athletes have a lot of dash and vinegar and although boxing is not yet on the curriculum of the local institution it is fair to presume that the day is not far off when it will be—as it is now in Cleveland and other cities. Most colleges have boxing and wrestling. There have been some high school boys here who mingled with the peddled mits but it looks as though Eddie Owens and Young De Mottio, seniors at the local institution will further popularize the sport. They've been through their pugilistic baptismal and will return to the ring here Monday night against different opponents.

Owens has been mated with a South Side lad, Del Prinz. Owens dropped a 'go' to Walter Burns of Ellwood City a few weeks ago but asked for another chance and having been drilled on speed he hopes to win from Del Prinz, who is said to be a rather clever boxer. Owens belongs to the Dime A. C. and Prinz to the Jefferson A. C.

Having seen his schoolmate, Owens defeated by Walter Burns of Ellwood City, the old sport asserted himself and bobbed Young De Mottio with a challenge to Burns with the result that they will also clash Monday night. All of the boys are lightweight and there ought to be a lot of action when the bouts go on.

Difficulties Overcome De Mottio is training with Custy Marino, Ellwood boy who belongs to the Koppel A. C., and Burns is

helping to put Ray Atkinson in superb shape—that is, if Ray can attain better condition as he boxed last night at Ellwood City. Custy is reported in the "pink".

There is plenty of rivalry between Marino and Atkinson. Matchmakers had tried for more than a year to mate them, but without success until they were induced to fight it out in a neutral ring and what has proved Ellwood's lost will probably result in a good scrap here.

While Custy and Ray are the finalists they will not put up any better scrap than what will be staged by Joey Evans of Ellwood City and Mickey Devlin of Springdale. Devlin will be a strange face here and there'll be two more when Red Clockey, Meadville, opposes Mike Olercheck of Meadville.

Both these 147 pounders have won decisions over Tony Adamo of this city and when this is said everyone will probably look for a good fight. There's one thing about Adamo. He fights with a capital F and his last scrap was vicious though he lost. If he was beat by those boys, fans can look for another hot bout.

Mickey Cutic of Campbell could only win by a shade over Nick Galore of New Kensington to win the flyweight title at Farrell and Johnny Backo, Springdale, a stiff puncher has been delegated the task of making Galore feel less galore.

Liked The Bout Fans watched with pleasure the last Billy Plummer, New Castle, Frankie Rachig, Bessemer, lightweight bout and they are docketed to furnish a repeat. All of the fans who once raved about Elmo the Mighty went into ecstasy when they watched the bout. Rachig had more class but Plummer's antics and zealousness won him support.

There's one more match in the making and if Ed. Fritz, matchmaker for the Jefferson A. C. can secure the right opponent he will send George Rocco, Ellwood City, to the post. The last two times out, according to Fritz, Rocco has won in a walk and reputedly good opponents proved no more than passing fancies.

Gene Kennedy won the middleweight tourney at Youngstown and Rocco made him take a nose dive. Jack Smith, who at 155, knocked

out the 175 pound champion of Youngstown, was knocked then out by Rocco in less than a round recently and Rocco turned the feast with ease.

In fact there are plenty of fans hereabouts who are likening George to Henry Piro and have commenced asking the ancient question: "How good is Rocco?" Unless a good opponent can be secured he will not appear but lines are out to match him with Kid Goodballet or a boy of his like. Goodballet is from East Liverpool.

Washington To Play Bessemer

Coach Carroll Will Send George Washington Against Bessemer Today

George Washington Junior High football team will play the strong Bessemer High team at the Washington High field this afternoon at 4:30 o'clock. It was announced by Coach Dan Carroll today. This is the big test for the George Washington team. The locals will be up against one of the best Class AA teams in Lawrence County.

Coach Frederick will bring his strongest lineup to New Castle to contest with the Junior High team. The Bessemer team will feature Clark and Marshall in their offensive and running attack.

Washington High has a well balanced team this year and they hope to take the measure of the Bessemerites. Bessemer recently defeated Evans City High 33 to 13, and lost to Sparksville.

Turtle Creek Not Coming To Taggart Field

Turtle Creek School Board Vote To Keep Annual Grid Game At Turtle Creek

FOOTBALL DATE IS OCTOBER 21

New Castle High school football team will go to Turtle Creek on Saturday, October 21, for their sixth game of the season. It was definitely announced by Faculty Manager Ralph H. Gardner today.

The Turtle Creek officials had sought to transfer the game to New Castle for either a Friday night or Saturday game, but the Turtle Creek school board after due consideration decided to keep the annual grid game between the two Class AA teams at Turtle Creek, and so the trip will be made by New Castle.

RADIATORS DINE National Radiator masherball team, champions of the East Side masherball league will dine tonight at 7 o'clock at the home of C. C. Cover, 926 Adams street, with Ralph Bolinger in the role of host, along with Manager C. C. Cover. About 20 will participate in the dinner.

FOR SAFETY FOR LOW PRICES

—and to help keep men at work!

It's always wise to buy new tires in the fall. You need the safety of sharp new road-gripping treads in fall and winter, when the roads are slipperiest—when there's the most driving in the dark.

New tires wear less in cool weather on cool roads—you can have their safety all winter and they'll still be practically new next spring.

But this fall, there are two more reasons why it pays to buy Goodyears.

The prices are low—many of them lower than they were a year ago. Read the price list and see for yourself.

Franklin High Meets Ellwood

Ben Franklin Junior High Football Team Will Play Ellwood City Reserves Today

Ben Franklin Junior High football team will get another severe testing this afternoon at 4:30 o'clock at the Taggart Field when they meet the fast Ellwood City High Reserves team. Coach Emmett Gillaspie will have his strongest line-up available for the game today. The Franklinites have had a fine season to date and hope to continue their stride by taking the measure of the Ellwoodians. The two teams recently played a fine game at Ellwood City, and the Benedict coached team walked off with a 7 to 10 victory. The Franklin offense this year is built around Dom DeCaprio and Paluso.

Shenango Ready For Mercer Team

Raney Has His Charges Fit For The Game Friday Afternoon On Shenango Field

Regardless of what the outcome is Friday afternoon, Coach Ed Raney has his Shenango High football team ready for Mercer High. The baptism of fire against its opponents this year has smoothed out some of the kinks in the Shenango machine, and the team is ready to repeat the victory of last year. The decision to defeat Mercer this year is subject to change however, and Mercer believes it has the change. Red Crowell has been pointing his team for several weeks in order to avenge the shattering they took last year, 32-0, and adding up all the elements in the case brings the same answer—a good game. The game starts at 3:30 on Shenango field. The field is located on the old Pittsburgh road just out of East New Castle. For an afternoon's sport, with two teams bound to be at the top of their game, the tilt promises a lot of sport.

BRICK BRADFORD—In the City Beneath the Sea

By William Ritt and Clarence Gray

Local Man's Brother Has Sole Republican Newspaper Of Florida

Three years ago, when W. G. Underwood (brother of New Castle's Attorney E. M.) published the first issue of "The Florida Beacon" at Jacksonville it was as if he boldly stepped right out in front of the firing line and said "Now there will be a little action."

Florida, as every one knows, is Democratic from the "D" to the "C" and from the state line to the tip of the gulf. And "The Florida Beacon," as Florida soon found out, is Republican and the only Republican paper published in the entire state.

There has been action in the past three years, and blows, but the sturdy little "Beacon" has been taking all the slings and arrows standing up and has deftly caught a few and tossed them back.

Mr. Underwood has been spending the week in New Castle visiting his brother and his numerous old friends. Although never residing in this city he has been a frequent visitor. He is a graduate of Swarthmore college, Philadelphia, and a newspaperman of ability. His interest in politics shows itself in the editorial columns of "The Beacon" and makes rapid-fire reading for the 20,000 subscribers. He is secretary of the Duval county Republican executive committee, was chairman of the state's publicity committee during the 1932 campaign the paper had a circulation of 50,000 copies.

"I feel," Editor Underwood said to-

day, "that the Republican organization and party in Florida is in excellent shape and still functioning actively. In 1932 the Republican vote there was more than twice as large as that of the Coolidge campaign in 1924. The Florida Beacon is working hard to building up the party system in Florida and feels encouraged to believe that it will be only a few years until the Republicans will be strong enough to have their say and to command an audience. We feel that we have a very good chance of electing at least one Republican congressman in 1934."

Russo-Japanese Relations Strained

Japanese Foreign Minister May
Lodge Protests With
Moscow

(International News Service)
TOKYO, Oct. 12.—With possible severance of Russo-Japanese diplomatic relations depending on the next move of the Soviet in the Chinese eastern railway squabble, Foreign Minister Hirota today pondered whether he would lodge vigorous protests with Moscow.

Relations between the two nations became strained when documents, branded forgeries by Japanese officials, were published by Soviet authorities in what was intended as an "expose" of an alleged Japanese plot to seize the railway.

Moscow, Oct. 12.—In caustic terms, the Soviet press today denounced and ridiculed Japanese denials of the authenticity of documents produced by Russia allegedly exposing a Japanese plot to seize the Chin Se Eastern railway.

Investigations characterized the denials as "funny," declaring the Japanese government was "at a loss to know what to do."

The industrial organ Za Industrializatsia hinted at new disclosures declaring that only a part of the documents alleged to show Japanese aims in Manchukuo had been published.

It was understood here that Tokyo has not transmitted her denial officially to the Soviet government.

No Action Taken By School Board On Sick Leave

Board Declines To Extend Pay-
ment Plan To Cafeteria
Employees

No second could be secured to a motion of Mrs. J. C. B. Douthett's Wednesday night at the meeting of the school board, which would provide for a three day sick leave for women working in the cafeterias of the schools, and the motion fell.

Mrs. Douthett explained her motion by saying that teachers and janitors got a three day sick leave each year and she thought the cafeteria women should get the same thing.

"I am not enthusiastic about the idea at all," said J. H. McIlvenny. "If we grant such leaves the taxpayers will have to provide the money to pay for the leaves and it would add to the cost of operating the schools."

"It would come out of the cafeteria funds," said A. W. Bauman. "Every other department has it, why not this one?" asked Hyde.

"Is it customary to give such leaves to day employees?" asked Mrs. John E. Elliott.

W. W. Duff said that the reason teachers and janitors got a three day cumulative sick leave each year was because the idea was predicated upon extra work which had to be performed from time to time by salaried employees. "It would set up a precedent which would have to be followed," said Mr. Duff. "It is not the policy anywhere to give daily wage employees a paid leave."

Said Hyde: "I think we had better leave this thing alone."

No second could be secured and the matter was dropped.

Approval was given Wednesday night by the New Castle School Board for the payment to Maxwell and Gibson of \$225.00, being the amount of coal delivered to the schools in September.

This year's coal contract was drawn in such fashion that the price will vary with the action of the Federal government in controlling the industry. W. W. Duff calling attention to the fact that the freight rate on coal was reduced six cents per ton on October 1 when the six cent emergency tariff was taken off.

Election Results

The primaries of this fall are a matter of history; few indeed are the candidates that won and received that coveted thrill of victory, while many are those who have a headache. With the exception of sheriff all of the contests on the Republican ticket were quite close and the election hotly contested. Some of the results were so close that the official count was necessary before it could be definitely said who were the nominees. On the Democratic ticket we have a little different situation, while there were contests for every major office but one, in most instances the nominee received, if not a majority, of all the votes cast.

At least a much larger percentage of the same than did the nominee for the same office on the Republican ticket. For instance, Alley, the winner on the Republican ticket for the nomination of District Attorney, received but about twenty-seven per cent of the entire vote cast, while the nominee on the Democratic ticket received fifty-four percent of the vote cast.

The vote cast on the Republican ticket was quite heavy while the vote on the Democratic ticket was phenomenal. There were nearly 2400 votes cast on the Democratic ticket which number is better than three times the number cast in the primaries of 1932.

Most of the campaigns were conducted on merely personal lines, it being a matter of personal preference with the voter as to who he voted for with no issue involved, however, the District Attorney results seem to show that the wet and dry issue still is a factor although up a precedent which would have to be followed," said Mr. Duff. "It is not the policy anywhere to give daily wage employees a paid leave."

Said Hyde: "I think we had better leave this thing alone."

No second could be secured and the matter was dropped.

W. W. Duff said that the reason teachers and janitors got a three day cumulative sick leave each year was because the idea was predicated upon extra work which had to be performed from time to time by salaried employees. "It would set up a precedent which would have to be followed," said Mr. Duff. "It is not the policy anywhere to give daily wage employees a paid leave."

Said Hyde: "I think we had better leave this thing alone."

No second could be secured and the matter was dropped.

Drinking Fountain Is Asked For School

B. K. Thacker, principal of the George Washington Junior High School asked the School Board Wednesday night for a new drinking fountain for the cafeteria in his school. In the request he stated there was but one fountain in the room now and this required the use of glasses. As a result there is much breakage in a year, the floor is constantly wet and the crowding is not a good thing.

The matter was referred to the Building Committee.

Consider Plan To Use Shops

Some Possibility Seen That Ben
Franklin Shops May
Be Used

Some slight possibility of opening the shops at Franklin School is seen in the attitude of the school board Wednesday night. Director J. H. McIlvenny said that he understood some cities were operating their shops under a rental form of operation.

"We have a large amount of machinery in the shop building," said McIlvenny "and if we could operate it I think we should investigate the idea."

Dr. Green said that he had investigated the Cleveland plan and would investigate plans he had been informed of. Following the investigation an effort will be made to operate the shops if possible.

Governor's Wife Makes Address

Speaks To Mass Meeting Of
Coal Miners And Steel
Workers Near Vandegrift

(International News Service)
VANDERGRIFT, Pa., Oct. 12.—Mrs. Cornelia Bryce Pinchot, wife of the governor and militant crusader for the laboring man, today was on record with a flat statement that the government cannot help the working man until he organizes into labor unions.

Ten thousands steel workers, and coal miners of the Kiski and Allegheny valleys massed at Grillo Park near here last night to hear the state's first lady express this hope.

"I want to live to see the day when every man who works in a steel mill will be a member of the union. But it's up to you now to organize. The government can do nothing for you unless you do."

Mrs. Pinchot made only one brief reference to the coal strike in the Western Pennsylvania bituminous field. She charged that Thomas Moses, president of H. C. Frick Coke company, owner of the captive mines around which the strike revolves, has "attempted to set himself above the law of the United States."

The meeting was filled with drama. Mrs. Pinchot drew from Cleveland to Pittsburgh to attend the affair, determined she would speak despite any efforts to halt the
